## SUMMARY

Web developer seeking to become associated with a company where I can utilize my skills and gain further experience while enhancing the company's productivity and reputation.

---

## WORK EXPERIENCE

Freelance Software Engineer — Remote

Jan 2020 - Present

- Successfully delivered **over 15 full-stack software projects** for clients in industries such as e-commerce, healthcare and education.
- Collaborated remotely as a Freelancer to design, develop, and deploy scalable web applications.
- Utilized modern programming languages and frameworks, including JavaScript (**React**, **svelte**, **Node.js**), Python (**Flask**) and PHP (**Laravel**).
- Built RESTful **APIs** and integrated third-party services such as Stripe and Firebase.
- Maintained high code quality, testing coverage, and documentation standards using **Git**, and **Agile** methodologies.
- Clients reported increased application performance, reduced development time, and improved UI/UX based on delivered solutions.

---

## PROJECTS

Freelance Projects (**Laraval - python - react with inertia**).

- **Youtube clone with recommendations (multi auth)**: It contains a Python-based model that links videos together through data analysis techniques, then suggests videos based on user behavior.
- **Courses website (multi auth)** : An integrated courses website where a person can log in as a student or a professor, and it contains an admin panel for management.
- **Hospital Management System (multi auth)**: An integrated hospital system for managing patient registration, appointments, medical records, tests, and prescriptions. It also includes financial management for salaries, medication fees, and reservations, as well as employee management and integration to achieve the best service.
- **Indexer (python only)**: An indexer was built from scratch to simulate the work of search engines on a set of documents, and several indexing algorithms were applied.
- **Movies Recommendation System (Laravel - Python)**.
- **Simple Crud Projects (Blog - recruitments websites - etc)**.

EDUCATION

<b>Master Student</b>	Nov 2024 - present
Syrian Virtual University	
• <b>Specialization:</b> Mastering Web Science.	
<b>Bachelor's Degree in Information Technology Engineering</b>	Sep 2019 - Aug 2024
Tartus University	
• <b>Relevant coursework:</b> Web Development, Machine Learning, Computer Networks, Algorithms, AI.	
• <b>Graduation Project :</b> Hotel reservation system integrated with AI models (Face recognition & Fuzzy_logic with python from scratch).	

COURSES & TRAINING

• PHP & Laravel Course - Laracasts , Laravel docs , Youtube   sep 2023.
• CCNA ( <b>Cisco Certified Network Associate</b> ) - Cisco skills for all platform   Jan 2022.
• React Framwork Course - YouTube   May 2022.
• Data analysis & Fuzzy logic with Python Courses - Youtube   Feb 2021.
• Cyber Security Course - Idraak platform   Aug 2020.
• HTML5,CSS3,Javascript Courses - Youtube   Jan 2020.

SKILLS

TECHNICAL SKILLS	PERSONAL SKILLS
• React js , node js , svelte , tailwindcss.	• Problem-solving.
• Mysql , mongoDB , a little bit Postgresql.	• Communication.
• Laravel 10-11.	• Teamwork.
• Programming Languages : Python , Php , js.	• Adaptability.
• Git , Github.	• Attention to detail.

CERTIFICATES

• Java For Android Applications	(Idraak platform)	22 Apr 2020.
• Introduction to Cyber Security	(Idraak platform)	10 Nov 2020.
• Protecting systems from penetrations	(Idraak platform)	23 Feb 2021.
• Cyber security attack techniques	(Idraak platform)	10 Mar 2021.
• Cybersecurity Essentials	(IBM)	17 Aug 2025.
• Security Operations Center(SOC) (Cisco Learning & Certifications)		12 Sep 2025.

LANGUAGES

• Arabic – Native
• English – Professional Working Proficiency
